Report for 12 June -- Generally fair in the Vojvodina and in the Primorje. In other regions, moderately cloudy with light local thundershowers. Winds light; temperature at 1300 hours between 23 and 25 degrees centigrade.

Forecast for 13 June -- Generally fair throughout Yugoslavia in the morning. During the day, moderately cloudy with local thundershowers in the central and eastern regions. Wind light. No change in temperature.

RECENT RAINS FAVOR CROPS -- Borba, No 132, 4 Jun 50

Rainfall in all Yugoslavia for the last few days was as follows:

The amount of precipitation fluctuated from 30 to 100 millimeters in the eastern part and from 20 to 50 millimeters in the western part. In South Serbia and Montenegro it amounted to 50 to 80 percent of the average. In the Zapadna Morava and Sandjak regions, the amounts were above the average for the year. Most of the precipitation, except on the islands and coastline of the central and northern Primorje, occurred in the Drava Valley. Precipitation in the Sava Valley and in the Vojvodina was 40 percent above the average for the year. The amount of precipitation and its distribution will be favorable for the crops, especially in those areas which have been unusually dry.

WEATHER IN SLOVENIA -- Slovenski Porocevalec, No 127, 138, 29 May - 11 Jun 50

Report for 29 May -- Heavy rains in Serbia and Vojvodina.

Report for 30 May -- Rain in Bulgaria. Clear in Slovenia. Lowest temperature, 1 degree centigrade, at Jezersko.

Report for 31 May -- Sunny and partly cloudy in Slovenia. Lowest temperature, 5 degree centigrade, at Postojna and Jezersko.

Report for 1 June at 1300 -- Partly sunny with variable cloudiness and local precipitation throughout Slovenia.

Report for 2 June -- Cloudy with precipitation. Lowest temperature, 9 degrees centigrade, at Planica. This morning the temperature of the sea in the bay of Trieste was 22.5 degrees centigrade. In Ljubljana the barometric pressure at 0700, reduced to 0 degree centigrade, was 741.4 millimeters. Lowest temperature last night, 12 degrees centigrade; at 0700, 13 degrees centigrade. During the past 24 hours there were 23 millimeters of precipitation.

Report for 3 June -- Generally sunny. Lowest temperature, 7 degrees centigrade, at Jezersko. Temperature of the sea in the bay of Trieste 21.5 degrees centigrade. Barometric pressure at 0700 in Ljubljana, 742.7 millimeters. Lowest temperature at night, 8.9 degrees centigrade; at 0700, 13.4 degrees centigrade. Relative humidity, 85 percent.

Forecast for 4 June -- Sunny and warm. Temperature at night will be 10 degrees centigrade; during day it will be 25 degrees centigrade.

Forecast for the first half of next week -- Continually fair and dry. Little change in temperature.

Report for 5 June -- Highest temperature, 27 degrees centigrade, in Celje, Novo Mesto, and Ajdovscina.
